LOCAL NEWS.

Mr Roy Altou has moved to the Lundy residence.

His friends here will be pleased to hear that Gus Mintz is making good progress toward recovery from the injuries he received early in the new year at the Carlson sawmill, near Junkins, when Gus was struck in the abdomen with a flying plank. He is in Mitercordia hospital.

Great interest is still being taken in the waist drives in the Band hall, as evidenced by the good crowd assembled the last play night. The next session is Wednesday next, the 23d. At the close, the prizes to the winners in this series will be distributed.

A meeting was held last evening of the members of the congregation of St Matthew's Church (Missouri Synod) in the church building, with a good attendance present of members and adherents. Among other matters discussed was that of education.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M. M. Mecklenburg, eye specialist, 10159 101st St., Edmonton.

Stony Plain U.F.A. Local.

This Local held its annual meeting Saturday. R. C. Propp was re-elected Pres., and L. Zilliox re-elected Sec. P. M. Evjen is delegate to the U.F. convention. A discussion took place on the Stony Plain Agricultural society's affairs. The majority of the speakers were in favor of a public meeting being held in the near future of all those interested, when the matter of continuing the Fair could be discussed. Several new members were added to the roll, and the Local is now in a flourishing condition.

Another meeting is called for Sat., Feb. 2, when reports from the delegates to the convention will be received.

U. F. W. A. Convention.

The fifteenth annual convention of United Farm Women opened in Edmonton on Tuesday last, and continued until today.

Greetings on behalf of the province were conveyed to the assembly by Hon. O. L. Macpherson.

This was followed by the very interesting address of the president, Mrs. R. Gunn. Among those who made addresses were Miss J. Macmillan, D. M. Malin, and Mrs. T. L. Guild of Regina.

Community singing was a feature at the opening of each session. This was under the direction of H. P. Brown, of the U. of A. department of extension.

The dance and entertainment at the Macdonald on Monday evening was well attended. There will be a social hour at the close of today's session.

About Ourselves

Scanning the pages of a little farm machinery magazine the other day, the attention of the writer of this column was drawn to a short article headed "About Ourselves," and, like everybody else, he was interested in himself, he proceeded to read it. It appeared to him as so benign to absolutely true, so worth-while, that he decided to pass it on to the readers of this paper and thus give still wider circulation to a message which all would do well to heed. Here is the article:

"We all want the things that we think will make us happy. We want to own things, to know about things, to go places, to do things, to work out ideas, to win the esteem and respect and affection of folks.

The bigger our wants, the more chances we have of being wrong while. The person who cares for nothing amounts to nothing. We begin wanting the day we are born. When we quit wanting, we'll be dead. If we don't want anything, we are hopeless.

If we don't think about our wants, we let little desires crowd out the really big, worth while desires. "I didn't think," is the excuse most often given for acting foolishly, recklessly, dangerously, selfishly. Unnecessary accidents and needless griefs follow. Thinking clears the way for restful action. If we don't think, we are reckless and selfish.

In order to make our feelings and thoughts count, we must do something. The more times we get good thoughts backed by strong feelings and do nothing, the worse off we are. Doing things tests our thinking and our feeling—enables us to do clearer thinking and work out happier things the next time. If we won't work, we are helpless.

A slight change in attitude may make a great change in life; the light of a new idea may point the way to the successful working out of a problem; even when things seem wrong and we can't see clearly, starting to do something may clear the way.

What we feel, what we think, and what we do make us what we are." That's the message. Read it over again. Then, once again, read the last lines: "What we feel, what we think, and what we do, we are."

Now read the first sentence again: "We all want the things that we think will make us happy."

This article is about ourselves. It is a sort of heart to heart talk, a kind of personal stock-taking at the beginning of a new year. So, let us ask ourselves some pointed questions. Granted we want to be happy, we we ever happy while thinking mean, uncharitable thoughts about somebody else? Rather, have not our happier moods been those when kindly thoughts of others occupied our minds?

We will find happiness in the esteem, respect and affection of others. There are few of us but desire to be popular. But can we command these things, or do we deserve them. If, on our part, we are entertaining feelings of contempt and hatred for those around us?

We find joy in doing things, but can we expect to accomplish much if we are arrogant in our attitude towards others, if we insist upon always having our own way, if we are intolerant of the views and opinions and convictions of those with whom we are called upon to work?

A person who is always suspicious of others soon becomes the object of general suspicion. Thinking mean thoughts, cultivating uncharitable feelings, doing unworthy things, may or may not hurt those against whom they are directed, but they most assuredly do hurt the one who indulges in them. They affect his or her whole character. Persisted in they will even leave their indelible mark upon the countenance with the result that the uglier inner life will be like an open book that all others may read—and shame.

The happiness so much desired is not to be found that way; rather it is the death of all happiness.

Remember: "What we feel, what we think, and what we do we are."

Gave Service Gratuitously

Colorado Doctor Labored For 25 Years Making No Charge For Medical Attention

Dr. B. A. Arbogast, the "hermit physician," of the rough, mountainous country west of Craig, Colorado, died of poverty recently, after a career devoted solely to gratuitous service of his fellow men.

For 25 years Dr. Arbogast has been the physician in a rugged cattle country, which embraced 100 square miles surrounding the little cabin

where he lived alone. He ministered to the ills and hurts of cowboys, homesteaders, cattlemen—and made no charge for his services.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Worth Finding Out

Dr. F. G. Bantling is now experimenting with "royal jelly," the food which the bees feed to develop the queen bee. Some specialists think that this stuff, which is said to prolong the life of the queen bee for several years, may have some merit as a food for human beings. It is worth trying to find out just what it is composed of.

Teacher.—"Now, James, name America's greatest general." James (the son of a broker)—"General Motors."

Stockings were invented in the eleventh century, but weren't discovered until the twentieth.

Hockey players use Minard's Lini-mat.

Charleston Dance Contest

Judged By England's Leader

Miss Leslie—Sutton, chief judge of the Charleston contest for England, writes: "My unique position in the dancing world today would never have happened if I had not taken care of my health. I constantly had that tired out, depressed feeling, with sick headache, indigestion, flatulency caused by the poison of constipation.

Your mild laxative has been of valuable assistance in keeping my system in a daily healthy condition. CARTER'S LITTLE LIVER PILLS All druggists—25c and 75c per package.

Baron Munchausen

Never Told These

Inquiring Guests Add To Wonders Of Jasper Park

"The Equator," said the youngster, writing his examinations, "is a managerie lion running around the earth." Schoolboy howlers are always rich in humor. But the howlers are not always made by school-boys.

Last summer a lady came up to the transportation desk in Jasper Park Lodge to inquire about the motor trip to Mount Edith Cavell and the Angel Glacier. She was very anxious to miss nothing of the wonders of the mountains. "When," she asked, "does the Glacier spout?"

"Then there was the lady who thought that the Lodge would be very pretty when it was finished, when the walls were plastered and kalsomined. That the great peeled logs, well chinked and cunningly fitted together, were meant to be as they were, never entered her consciousness. She knew nothing of the beauty of mountain architecture.

The prize, however, goes to the lady who was discussing the wild life of the park with one of the rangers. "The goats and the sheep are the same species, are they not?" she asked innocently. "Which are the males?"

"Oh, the goats, madam," said the warden, without batting an eyelash.

A PROBLEM FOR YOUNG MOTHERS

Stomach troubles cause most of the distress of babyhood and childhood, and one of the greatest problems that a young mother has to solve. The treatment for these digestive disturbances that disturb her sleep must be quick and effective, and, above all, perfectly safe.

The absolute safe treatment for disturbances of the stomach and bowels is found in Baby's Own Tablets. Thousands of mothers have had their problem solved through them. They are guaranteed to be free from all injurious drugs and cannot possibly do harm to even the youngest babe—they always do good.

Baby's Own Tablets regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fevers and promote that health-giving sleep which is so necessary to the welfare of the baby or growing child. The Tablets are sold by all medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Forty new school districts were established in Alberta in the first nine months of 1928—making a grand total of about 3,500 in the province.

To Check Flu-Grip

Fight the Germs with Vapors Before They Can Get a Start

Treat All Colds Promptly But Be Careful Not to Disturb the Digestion With Too Much Dosing

While Flu is so prevalent everyone should take precautions to prevent its further spread. Flu is generally accompanied by a headache, burning eyeballs, and aching joints. But it begins so many times with just an ordinary cold.

Too often, the colds are neglected until they have lowered the vitality and permitted the lurking germs of influenza, or pneumonia to "get a foothold."

The only safe plan is to attack a cold at the very start. A hot bath, a laxative, and a vigorous application of Vicks VapoRub on the throat and chest at bedtime, will usually break up a cold overnight.

External Treatment Best

For hours after Vicks is applied, its ingredients, time tested remedies, such as camphor, menthol, eucalyptus, thyme and turpentine, are vaporized by the warmth of the body, and inhaled right to the inflamed air passages. At the same time, the ointment acts

through the skin like an old-fashioned poultice, "drawing out" tightness and pain, and helping the vessels to break up the congestion.

Avoid Upsetting Stomach

This simple external treatment cannot disturb your digestion as too much "dosing" is so apt to do. This is doubly important when "flu" is around, for your stomach, as well as your respiratory organs, must be kept in good condition in order to keep your body resistance at its highest level.

For this reason, too, mothers prefer Vicks for children. It can be used freely and often, even on the youngest child, with no fear of upsetting a delicate stomach.

To Help Ward Off the Flu

When influenza colds are prevalent, you can often prevent infection by sniffing a little Vicks well up the nostrils every night and morning, or before exposure to crowds.

Help British Unemployed

Canadian Fund Opened by a Toronto Newspaper For Relief Of Minors

An indication of the interest which has been aroused in Canada of the plight of the British unemployed, particularly the miners and their families, is given by the response to a fund for their relief, opened by a Toronto newspaper. The fund, the first of its kind opened in Toronto, has received the endorsement of Hon. D. D. Ross, lieutenant-governor of the province, and leaders in every section of the industrial, political and religious life of the city.

Science can explain almost everything except why the static is always much stronger when the radio is being shown off to visitors.

Gracerville, Fla., annually ships more watermelons than any other point in the world.

Some men take good care of an automobile; others treat it like one of the family.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

is the easy and pleasant way to extract the most out of cod-liver oil to reinforce your body with strength to build resistance.

WINDOLITE

MADE IN ENGLAND

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and children and on the well-being of cattle enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light lust strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs. while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

Organization Plans Under Way For World's Grain Exhibition To Be Held In Regina In 1932

Organization plans and business for the World's Grain Exhibition and Conference, to be held in Regina from August 1 to August 13, 1932, were discussed at a meeting of the prairie provinces held in the Hotel Saskatchewan, Regina.

Hon. C. M. Hamilton, minister of agriculture for Saskatchewan, presided, and the members present included: J. A. Mooney, Regina, vice-chairman; Hon. A. Prefontaine, minister of agriculture for Manitoba; H. A. Craig, deputy minister of agriculture for Alberta; C. E. McKee, president of the Regina Board of Trade; F. Hedley Auld, deputy minister of agriculture for Saskatchewan; A. E. Whitmore, vice-president of the Regina Agricultural and Industrial Exhibition Association; D. T. Elderkin, manager of the Regina Agricultural and Industrial Exhibition Association.

The executive committee appointed the following officers of the World Grain Show Exhibition Conference Organization: Manager, J. A. Mooney; secretary, D. T. Elderkin; treasurer, W. G. Yule, Saskatchewan supervisor for the Royal Bank of Canada; auditors, G. C. Cooke and Co. Prizes amounting to at least \$200,000 will be offered in the regular prize list, in addition to which there will be a list of special prizes. A committee consisting of J. A. Mooney and A. E. Whitmore, was appointed to secure contributions toward special prizes, and it is expected that between \$50,000 and \$100,000 will be secured by the committee.

It was decided that there should be two official languages for the conference to be held in conjunction with the World Grain Show—English and French—and the official prize list will also be published in both languages. A preliminary issue of the prize list will consist of 85,000 copies in English and 15,000 copies in French.

A final revision of the prize list will be made when the executive committee meets again at the call of the chair early in April.

It was stated that the executive committee has received the assurance of the Dominion Government that the necessary financial assistance will be forthcoming to finance the organization of the World Grain Exhibition and Conference, which will be the biggest thing of its kind ever staged in Canada. Inquiries regarding the exhibition have already been received by the executive committee from Australia, New Zealand, India and China, although the committee has not yet undertaken any advertising campaign or distributed prize lists. It is anticipated the committee will issue its preliminary prize list, the distribution being on a world-wide scale.

In discussing the business details of preliminary organization work the members of the executive committee were unanimous on every step in a lengthy agenda, each item of which was thoroughly discussed.

Hon. C. M. Hamilton, chairman of the executive committee, expressed gratification with the co-operation shown by the representatives from Manitoba and Alberta. He regretted that Illinois had prevented Hon. George Hoagley, minister of agriculture for Alberta, from attending. A great deal of enthusiastic interest was already being taken in the plans for the World Grain Exhibition and Conference, particularly in the grain-growing provinces of Canada, he said, while inquiries had been received from Australia, New Zealand, India and China, although no official communications had been sent to these countries yet.

"At this time, when the supremacy of the grain-producing provinces of Canada in the growing of hard red spring wheat is being challenged on the markets of the world, the World Grain Exhibition and Conference in 1932 should have a great influence in stimulating Canadian producers in the production of wheat of the highest quality," he added.

Hon. A. Prefontaine, minister of agriculture for Manitoba, declared that Manitoba grain growers were already laying their plans for the World Grain Exhibition. We are right behind the movement, he added, "and our men are eager to enter for the valuable prizes not to mention the honor of winning prizes against the world-wide competition."

Simulates Two-Piece Mode
The popular tweed dress in copper red tones, that simulates a two-piece model with shaped hip-yoke and belted waistline. Cluster plaits at center-front of skirt, combine with center-closing bodice with button-trim, to carry out vertical line. The fronts of bodice are rolled, forming revers. Note the turn-back flared cuffs of dart-fitted sleeves, and shaped inset pockets! Style No. 341 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust, and is made with 3 1/2 yards of 40-inch material with 1/2 yard of 36-inch contrasting for 36-inch bust. Patterned wool jersey with plain jersey, black wool jersey self-trimmed, light navy blue velvet, printed rayon velvet in subdued wine-red tones, dull silk crepe in mahogany brown with matching tone rayon velvet trim, suede belt and bone buttons, and new light green homespun are strikingly smart and wearable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

The Subconscious Mind

Clear Cut Solutions Of Problems Often Come During Sleep

Everyone who has once gone to sleep baffled by a problem and awakened with a clear-cut solution in his mind knows that ideas often come not as the logical result to conscious thought, but inexplicably, in a flash of sudden insight. Experiences such as that of Dr. Baating, who declares that the idea of using insulin in the treatment of diabetes came to him at two o'clock in the morning, are probably far more common than is supposed.

Amper, the great mathematician, used to sleep on his problems. When he woke he had not infrequently the solution in his mind. Psychologists would say that while he slept his subconscious mind continued to work, just as the subconscious mind performs feats in the case of calculating child prodigies. The subconscious mind is never idle, and its manifestations are not infrequently peculiarly happy. It is, in fact, the most useful of servants; the drawback is that we cannot control it.—London Daily Times.

Could Work Together

Jacob Epstein, the sculptor, was reproaching a London artist for his business. "You're like a girl novelist, I know. You dream your work instead of doing it."

"Introduce me to that girl," said the artist. "We ought to be congenial."

"Yes," returned Epstein, "you'd make a wonderful couple. You could keep yourself busy illustrating the novels she doesn't write with the pictures you don't paint."

Give a sentence, using the word "annual." "Sandy, I'll pay the carfare, an-annual buy the lunch."

Skiing in the Laurentians

Not a country of wide open spaces but one of long white stretches where snow piles high against make fences and is faint blue and sometimes gold upon the hillside. The Laurentians, north of Quebec, are a skier's paradise and the week-end mecca of the daring and the fair. It has come so now, that the Canadian Pacific must run Ski-Specials from Montreal from one season's end to the other. The enthusiasts in ever-growing numbers take train to a given point and ski down to the next station or the one beyond, as time permits or the spirit moves them. The trout streams are frozen, but the resort-owners and the Habitants are beginning to count on the revenue they derive from the ski.

Remarkable Increase Is Shown In Number of Homestead Filings In the Four Western Provinces

Homesteading during the earlier years of Canadian western development remained the dominant feature of land settlement and held that position until it became increasingly difficult to obtain advantageous locations. As the prairies filled up, entries naturally declined, dependence on wheat diminished and greater attention began to be given to other branches of the agricultural industry. Then industrial activity started and continued until the great west entered on the initial stages of an organized modern community. Of late, however, as the frontier of fertility extended northward, homesteading has taken on a new lease of life, clearly disclosed in the monthly statements of homestead entries compiled by the Lands Administration Branch of the Dominion Department of the Interior. These show remarkable increases in the number of filings, culminating in the month of October when the largest gain occurred for any month of the current year. Every month, indeed, brought increases over the corresponding periods of 1927, varying in ratio from 32 per cent. in October. September brought some slackening with harvesting in full swing, but the influx of settlers resumed in October, when 1,899 homestead filings were registered in Manitoba, Saskatchewan, Alberta and British Columbia. For the first ten months of 1928, the total homesteads filed more than doubles that of the preceding year, standing at 11,521 to 5,172, representing a gain of 123 per cent.

Commenting on these figures in its publication, Natural Resources of Canada, the Department remarks that this expansion of free homesteads clearly indicates the northern trend of development in agriculture in Western Canada. Summing up the monthly figures by land agencies, these show that the frontier is being just as steadily pushed back in the agricultural regions of the Prairie Provinces by the homesteaders as it is in other sections of Canada by the mining, pulp and paper and other developments. While the figures for the agencies of Moose Jaw, Lethbridge, and Calgary indicate that homesteading is not over on the southern prairies, and in fact that considerable increases are recorded at these points this year, the north is where how great the march of progress has been made. While this accords with the natural expectancy, the figures are illuminating in indicating just how great the march of progress has been this year. At Prince Albert, representing the northern half of Saskatchewan, 2,855 homesteads

were filed on in ten months this year, compared with 1,501 in the corresponding period of 1927, a gain of 90 per cent. At Edmonton, representing central Alberta, 2,240 homesteads were taken up to October 31, compared with 1,143 to the same date in 1927, an increase of 96 per cent.

But it is in the Peace River country of northern Alberta and British Columbia that the spotlight shines with greatest intensity on the activities in taking up the Federal Government's free homestead lands. At the Great Prairie and Peace River agencies the total number of homesteads entered for in the first ten months of the current year was 4,178, compared with 894 in the corresponding months of last year, a gain of 367 per cent. These figures represent the totals for the Peace River section of both Alberta and British Columbia.

Big Farming Plan For Russia

American Will Plant Ten Millions Acres Of Land In Russia

The Los Angeles Times published an announcement by Thomas D. Campbell, of Hardi, Mont., and Pasadena, who is said to be America's largest wheat grower, that ten million acres of Soviet Russia's plains are to be planted to wheat and flax, with American machinery under his direction.

Campbell stated he would sail from New York this month for Russia to complete arrangements tentatively entered into during a recent visit to this country of a Soviet commission. Campbell said that more than \$100,000,000 worth of American planting and harvesting machinery would be purchased for the work of raising food to feed the Russian people.

British Death Duties

Mortality Among Millionaires Was Heavy Last Year

Mortality among British millionaires happened to be unduly heavy last year, and while regrettable on several accounts, the unusually heavy toll provides considerable relief to the exchequer. Death duties in 1927 produced \$150,000,000, whereas \$200,000,000 was yielded in only the last nine months.

The estate of Sir George Wills, tobacco magnate, was probated at \$50,000,000 and yielded to the treasury \$20,000,000 duty. This with nine other large estates paid nearly \$50,000,000 in taxation. Some men whose holdings of this world's goods are large, have attempted to lessen the shock of death duties by creation of trusts or by promoting a limited company to hold their possessions. The movement, however, so far has not reached large proportions for the system has its disadvantages for those practicing it.

Original "Mother Machree" Dead
Mrs. Nannie Ball, the original "Mother Machree" of her son's famous song by that name, died recently at her home in Bechurch, Long Island. She was 71 years old. The son, Ernest R. Ball, died in May, 1927. He was the composer of many popular ballads of which "Mother Machree" was the most famous.

The population of England is a little over 700 per square mile; the figure for Wales is 300, and for Scotland 160 per square mile.

"You have no sense of the tragic, Paul."
"Oh, yes, I have. I am wondering how the poor manager is going to pay his way with such a poor audience." — Megendorfer Blaster, Munich.

"John, can you find an infallible remedy for getting rid of rats?"
"We might try your cigars, sir."
— Buen Humor, Madrid.

WORLD HAPPENINGS BRIEFLY TOLD

A Toronto newspaper opened a fund for the relief of the British unemployed, particularly the miners and their families.

Units of insulin to the number of 1,120,500, costing \$4,500, were issued by the Ontario Department of Health during last November.

Representatives of the salmon industry of British Columbia estimate that this year's pack will be worth more than \$14,000,000 as compared with \$12,000,000 in 1927.

Major Carl Spatz and his Question Mark crew probably will be awarded Distinguished Flying Crosses for their endurance feat of 150 hours and 40 minutes non-stop flying.

England's oldest resident, William Walker, celebrated his 107th birthday recently. He received a presentation from the lord mayor of Nottingham. He was a bricklayer until he retired 23 years ago.

Howard Douglas, pioneer western Canadian, chief motion picture censor of Alberta for 13 years, and a former superintendent of Banff National Park, died at his home in Edmonton, at the age of 78 years.

The completion of the laying of steel into Churchill, the terminus of the Hudson Bay railway, will be marked by a celebration on a grand scale, it is announced. Plans will be formulated when the end of the work is in sight.

When the agreement with the transportation companies in regard to continental European immigrants expires in 1930 it will not be renewed. In the meantime, immigration officials say they will restrict this immigration as far as possible.

A commission appointed to study the possibility of building a tunnel under the Straits of Gibraltar has returned to Madrid with a favorable report. The cost of the tunnel was estimated at 300,000,000 pesetas (approximately \$48,000,000). The tunnel itself would be 20 miles long.

Marlatt's
realtment

INTESTINAL flu, high blood pressure, nervous disorders—how careful one must be to avoid these dangerous ailments at this time of the year.

Keep the system clear of poisons and impurities. Tone up the liver, prevent bile stagnation and intestinal lethargy. Let Marlatt's help you as it helps thousands every year to ward off illness and disease.

Progress in Aviation
Over 300 Airplanes Now Operating in Canada
On January 1, 1929, there were 333 aeroplanes in operation, or more than three times as many as a year ago, according to a survey of Canada made by the bureau of statistics. There are at present 44 air harbours in Canada, as compared with 25 last year. Licenses held by commercial pilots at the first of the year numbered 190, nearly five times the number on the comparative date. Activity in the north has been largely responsible for the rapid progress in aviation.

Greatest Swiss Avalanche
The greatest of Swiss avalanches occurred a century ago when five million tons of ice fell from the Alps glacier at a speed of three hundred miles an hour from a height of five thousand feet. Ice fragments were flung fifteen hundred feet up the opposite mountain side.

Sore Corns Drop Off If You USE "Putnam's"
When you notice any sign of callosities on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and costs the corn, quickly and without pain.

Newspaper Suffers Loss By Fire
Plant Of The Turflore Recorder Is Prey To Flames
Fire of unknown origin destroyed the post office and newspaper plant at Turflore, Sask., recently. The building and printing plant, owned by C. R. Mcintosh, M.P., and were covered by insurance. Post office fixtures, owned by A. Vinge, postmaster and editor of the "Turflore Recorder," were also insured. Owing to strenuous efforts on the part of volunteer fire fighters the blaze was kept from spreading. No fire had been made in the building on the day of the outbreak, according to Mr. Vinge.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple cure strong remedy: Mother's Worm Expeller.

John L. Pilgrim, a London woollen merchant, completed his 150th crossing of the Atlantic when he arrived at Liverpool in the White Star liner "Baltic."

Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugsley, East Southam, N.S., writes:—"I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night."

I decided to try MILBURN'S HEART AND NERVE PILLS.

and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves."

Price 50c. per box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co. Ltd., Toronto, Ont.

Man was made before woman to give him time to think of an answer to her first question.

Don't Submit To Asthma. If you suffer without hope of breaking the chains which bind you do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. This remedy relieves that cough which convinces you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is available by dealers everywhere.

It is said sharks do not attack humans. Then as far as we are concerned, there will be no fight.

Always keep Minard's Liniment handy.

To Check Outlawry
Detroit Policemen To Receive Bounty For Killing Criminals Caught In Act

Hereafter Detroit policemen who shoot and kill a criminal caught in commission of a crime will be paid a bounty of \$10, according to Police Commissioner Rutledge, who explained that the move was designed to check further outlawry.

The first presentation was made to Patrolman Arthur Underman, and Gerald McCauley, who on Jan. 3rd were forced to kill a negro when he resisted arrest.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chills, coughs, burns, scalds, cuts, bruises and sprains.

Learned From Experience
The Sunday evening Bible Class had been enlarged to full strength, and two of the latest recruits were discussing Bible topics.

"I think this yarn about feeding five thousand people with five loaves or bread and two fish is all bunk," declared Bill.

"It can be did, buddy, it can be did," answered Henry.

"Aw, what's the matter with you? You got bugs on this Bible stuff?" "Naw," replied Henry, "but I used to be a mess sergeant in France."

INFLUENZA'S VICTIMS
Left Weak, Miserable and a Prey To Disease In Many Forms
One of the most treacherous diseases afflicting the people of Canada during the winter months is influenza. It almost invariably ends with a complication of trouble. Its victims suffer with alternate fevers and chills, headaches and backaches. It leaves them an easy prey to bronchitis and pneumonia. Indeed, the deadly after-effects of influenza may leave the victim a chronic invalid. You can avoid influenza entirely by keeping the blood rich and red by the use of Dr. Williams' Pink Pills. If you have not done this and the disease attacks you, you can banish its deadly after-effects through the use of this great "blood-building, nerve-restoring tonic."

Here is proof of the power of Dr. Williams' Pink Pills over this trouble. Mr. F. H. McMillen, Belleville, Ont., says:—"Some years ago, following a severe attack of influenza, I was left in such a weak condition that my friends thought I would not get better. I developed nervous indigestion, and my blood got thin and watery. In the winter of 1918-19 I began the use of Dr. Williams' Pink Pills, and these did what other medicines had failed to do—brought me back to health and strength. I can honestly say I think them the best blood-builder and nerve tonic known, and I shall always praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A newspaper corrects the mistakes it makes. The weather office never does.

For frostbite use Minard's Liniment.

"We stand back of every auto we sell," says an ad. Fine! The front is the dangerous end.

ITCHY ECZEMA ON BABY'S FACE
Broke Out in Watery Pimples. Cuticura Healed.

"Eczema broke out on watery pimples on my baby's face. It itched and burned so badly that she scratched, and her face was covered with sore eruptions. When she scratched the eruptions they used to bleed something dreadful. She ceased to fret and stay awake nights. It was a disgraceful sight for a while."

"I sent for a free sample of Cuticura Soap and Ointment and after using it I purchased two boxes of Cuticura Soap and two boxes of Cuticura Ointment and in five weeks she was completely healed."

(Signed) Mrs. Clifford Paine, Westfield, N. S.

Give Cuticura Soap and Ointment the care of your skin.

Sample of Cuticura Soap and Ointment sent free to "Baby's Face" Club. Write for it to J. C. Kennerly, Inc., 100 N. York St., New York, N. Y.

FOR COLDS
ASPIRIN
BAYER

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

SUNDAY SCHOOL LESSON—
JANUARY 20
CHRIST THE SAVIOUR

Golden Text: "And thou shalt call His name Jesus; for it is He that shall save His people from their sins."—Matthew 1:21.
Lesson: Luke 2:11, 30-32; 15:3-7; John 3:14-17; 10:9-11, 14-16, 27; Acts 3:1-8; Romans 5:1-11; Philippians 2:5-11; 2 Timothy 1:9, 10.
Devotional Reading: Isaiah 53:4-9.

Explanations and Comments
The Value Of A Repentant Sinner. Luke 15:3-7. The Pharisees and scribes who criticized Jesus for receiving sinners and eating with them. Jesus said: "Is there a man among you who, if he possessed a hundred sheep and found one missing, would not leave the ninety-nine in the pasture lands and search for the lost sheep until he found it?" By the word translated "wilderlands" is meant the uninhabited lands which were the pasture lands.

"The sheep" who shiver with terror and cold when it no longer sees the flock, no longer hears the guiding voice of the shepherd, but it is only the shepherd who knows all that is involved in its position, only the shepherd knows the risks. We sometimes speak of man's infinite loss through sin, and I do not know that we can exaggerate it; but, after all, we do not realize it, even a measure, until we view from the side or God the poverty and deformity of the Christian's soul."—Thomas Stewart.

When the shepherd finds the lost sheep, he puts it across his shoulders (the easiest way in which to carry it), and returns rejoicing. So great is his joy that he must have others share it, and he calls together his friends and neighbors and bids them rejoice with him.

Grief can take care of itself, says Mark Twain, but to get the full value of a joy we must have some one with whom to divide it.

If you would be so careful and tender of one lost sheep, how much more careful and tender must the Good Shepherd be of the lost sheep of Israel? "I say unto you," said Jesus, "that even so in the case of this human shepherd there will be joy with God and His angels over one sinner that repents, more than over the ninety and nine righteous persons (such as the Pharisees regarded themselves, Luke 18:9), who (as they think) need no repentance." Dr. W. L. Watkinson points out three facts in this verse: (1) the significance of the individual—over one sinner; (2) the importance of the individual—lies in the fact that he is one sinner; (3) the most important event in the individual life is the restoring of the sinner's soul to God—one sinner that repents.

Corns cannot exist when Holiway's Corn Remover is applied to them, because it goes to the root and kills the growth.

English history is a masterpiece of absentmindedness.

Minard's Liniment is good for colds.

Radio school lessons may soon be in vogue in some of the secondary schools in Canada. The Department of Education is said to be considering this innovation.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions of the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have assisted their power in hundreds of cases and at all times are thoroughly trustworthy.

Stage Director (getting cast ready): "Are you Appius Claudius?" Supernumerary: "No, quite the opposite in fact, in this heavy armor."

It May Be Urgent

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. It is an emergency when constipation must be relieved—or colic pains—or other sufferings. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Fletcher's CASTORIA

NEW PICTORIAL STAMP ISSUES NOW ON SALE

Ottawa.—Canada's new pictorial stamp issue is completed and the four larger denominations are now on sale. The stamps are stated by post office officials to be regarded by philatelists as the finest produced in any country.

Each section of Canada is represented. The one-dollar stamp carries a picture of the parliament buildings and is significant of the central part of the country. For the maritimes the 50-cent denomination shows the schooner, Bluenose, winning the international fishermen's race. The Quebec bridge appears on the 12-cent stamp. The prairies are typified in the 20-cent stamp by a picture of a wheat field. The ten cent stamp bears a representation of a mountain in British Columbia with totem poles on the border.

The lower denominations carry the king's head. All numerals are larger than in previous issues. The stamps are stated to be among the finest examples of the engraver's art. Under the microscope the windows in the parliament buildings may be counted and figures of horses in the British Columbia stamp smaller than a p-h head, are replete with detail.

New Directors Elected

Aberdeen-Angus Association Announces Appointments For This Year

Brandon.—The election of directors for 1929 of the Canadian Aberdeen-Angus Association, which was announced by the secretary, F. W. Crawford, as follows:

For Ontario and other eastern provinces, John Lowe, Elora, Ont.; James Bowman, Guelph, Ont.; Col. R. McEwen, London, Ont.; Manitoba—Harry Leader, Burnside; J. H. McGregor, Brandon; Saskatchewan—U. D. Lyon, Devcon; W. J. F. Warren, Belbeek; Alberta—F. H. Reed, Lacombe; S. J. Henderson, Lacombe; Charles Elliott, South Edmonton.

Reach Flin Flon By Auto

This Means Of Transportation A Success During Winter

The Pas, Man.—For the first time in the history of Northern Manitoba, automobiles are being used this winter as a means of transportation over the trails and lakes between The Pas and Flin Flon, a distance of 400 miles.

Jim Reid, a well-known mining man, started out for Flin Flon via Sturgeon Landing and a word was received here that he had reached the landing. Two other parties started out on the same trip a little later.

Automobiles are running day between Cranberry Portage and Cold Lake as well as aeroplanes, tractors, and snowmobiles.

To Broadcast British

Campaign Speeches

Broadcasting Debate Between Party Leaders Is Also Proposed

London, Eng.—Radio will play a big part in the political speech making of the coming general election campaign. Addresses by Hon. Neville Chamberlain, at Liverpool, on January 18, and Premier Stanley Baldwin, at Newcastle, on January 24, will both be relayed throughout the country. A proposal to broadcast a debate between the leaders of the three parties on the de-rating bill has been accepted by the Labor party, and it is expected the Conservatives and Liberals will fall in line.

Johns Governor's Staff

Ottawa.—Arrival of Captain R. J. Streetfield from London, Eng., to join the personal staff of His Excellency the Governor-General has been announced from Government House. Captain Streetfield is a nephew of Col. H. Streetfield, who was secretary to Lord Lansdowne, when the latter was appointed governor-general of Canada.

W. N. U. 1768

Harvest Help Influx

Hon. Peter Heenan Explains Why Harvesters Were Brought From Britain

Ottawa, Ont.—A total of 75,000 harvesters were needed in western Canada harvest fields last year and as no assurance was forthcoming from the eastern provinces that they would supply 44,000 to add to the west's available 31,000, the federal government was obliged to appeal to Great Britain for men and as a result the influx-harvester scheme was brought about. This was the explanation of the influx of British harvesters last year to help harvest western Canada's wheat crop, given by Hon. Peter Heenan to the labor delegation which presented its legislative program to the federal cabinet.

The federal government had to protect itself, Mr. Heenan explained, as the eastern provinces could not assure the government of 44,000 harvesters, it was decided to bring ten thousand Britishers to help in the harvest fields.

The estimated requirement of 75,000 was made by a committee which investigated the harvesting conditions.

German Report Shows Gold Reserve Increase

Reichsbank Vaults Contain Twice As

Much As Before War

Berlin.—Five years after the stabilization of the German Reichsmark the vaults of the Reichsbank contain more than twice as much gold as before the war.

At the beginning of December the Reichsbank reserves showed a total of 2,650,000,000 marks worth of gold, while on December 31, 1923, the Reichsbank had only the equivalent of 1,170,000,000 marks in gold.

Since 1924 the gold of the Reichsbank shows a constant increase, 1928 being a record year with acquisitions of gold amounting to 787,000,000 marks until the end of the first week of December.

During the years 1924, 1925, 1926 and 1927, the Reichsbank has bought up gold amounting to 2,395,000,000, 448,000,000, 377,000,000 and 387,000,000 marks respectively.

National Resources Question

No Statement By Premier King In Respect To Province Of Alberta

Ottawa.—Premier Mackenzie King has not yet issued any statement with respect to the return of the natural resources to the province of Alberta, and it seems doubtful whether he will discuss the matter until definite agreement is reached.

When Premier Brownlee was last in Ottawa, it was understood that a tentative arrangement had been arrived at, but that it would be discussed further in correspondence between the two governments.

A despatch from Edmonton outlining what is said to be a new offer by the Dominion indicates that this correspondence is proceeding. The prime minister, however, has made no announcement as yet.

Japanese Stage Revolt

Assistance Of Infantry Required By Police To Control Peasants

Tokio.—Three companies of regular infantry were rushed to Naniwa, a village near Fukuoka, when Japanese smouldering rural unrest flared up momentarily.

Two thousand peasants marched in a body on the local government offices and 300 police were unable to control them. Fighting ensued with casualties on both sides and the troops were called.

The peasants were protesting against a government riparian project which they claim would flood hundreds of acres of paddy (rice) fields.

It was officially reported that the peasants were still gathering in the neighborhood districts and arming with bamboo spears.

Earthquake In Turkey

Constantinople.—A violent earthquake accompanied by a terrifying subterranean roar occurred at Angora recently. No accident to life or property was reported.

PREDICTS POLITICAL CRISIS

Arthur Beverley Baxter, the Canadian who is managing editor of the Daily Express, London, who has "uplaid the beans," as he himself cheerfully puts it, by announcing that Beaverbrook is prepared to go to the mat with the die-hard political parties in Britain in order to effect an empire-wide tariff. Baxter, who made the announcement during his present visit to Canada, predicts that Beaverbrook's action will result in one of the greatest political crises in British history.

Ship Huskies To Byrd

Dogs Required For Pole Exploration Have Left Vancouver

Vancouver.—When the R. M. S. Niagara sailed from Vancouver, January 9, for New Zealand and Australia ports she carried 15 young husky dogs for Commander Byrd's Antarctic expedition. The dogs have been housed at the Grouse Mountain Kennels here.

The dogs must reach Dunedin, N.Z., by February 7, in time to be forwarded by the steamer Elinor Boiling for the Antarctic base on the edge of the great ice barrier, E. J. Parr, agent for the White Pass and Yukon Railway, has completed all arrangements for the shipment in response to a recent request by Commander Byrd, it is stated.

McLean To Receive

Eight Thousand Yearly

New Post Carries Salary Of A Deputy Minister

Ottawa, Ont.—Hon. J. D. McLean, former premier of British Columbia, and newly appointed farm loan commissioner, is in conference with departmental officials here and beginning the preliminary work of organizing the rural credits system.

Mr. McLean will be paid \$8,000 per year, the salary of a deputy minister. Two other members of a farm loan board who will serve part time, will shortly be appointed.

Dog Days of Quebec

There was great consternation in the canine world a few days ago when it was decreed that no dogs in harness must roam the streets of Quebec. There was a rumour that the great classic, the Eastern International Dog Show Derby, was to be cancelled, that the Chateau team, was to be banished from the terrace—all sorts of horrible rumours; but as afterwards developed, the edict was not directed against any other than the small boy who, with a dog he may, or may not, be able to control,

Visualizes Conditions Ideal

Henry Ford Says Farming Needs To Be Completely Revolutionized

New York.—A world in which no one smokes or discusses prohibition, where farmers no longer farm and housekeepers no longer cook, and machines take care of the drudgery is outlined by Henry Ford in his book, "My Philosophy of Industry," just published.

"The great problem in the home today," the Detroit capitalist points out, "is too much drudgery. We shall soon find a way to do much of the cooking outside and deliver it at meal time at no greater cost."

The old farm is likewise due for a big change, according to Mr. Ford.

"Farming needs to be completely revolutionized," he says. "Large corporations, whose sole business it will be to perform the operations of plowing, planting, cultivating and harvesting, will supersede the individual farmer, or groups of farmers will combine to perform their work in a wholesale manner. This is the proper way to do it and the only one in which economic freedom can be won."

Test Saskatchewan Seed

Seed Testing Laboratory Is Established At Saskatoon

Saskatoon.—Saskatchewan seeds will in future be tested in the laboratory of the Dominion Seed Branch of the federal department of agriculture which is being put into operation in rooms occupied by this department here, according to a statement given out recently.

Preparations for opening this laboratory and offices have been under way since December. In all about 3,000 feet of floor space will be occupied.

Nelson Young, of Winnipeg, acting district inspector for the whole district of Saskatchewan will be in charge. Dr. P. T. Wahlen, chief seed analyst of Ottawa, head of all laboratory work in Canada, is here in connection with the opening of the laboratory.

New Airplanes Ordered

Five Are Especially Equipped For Patrols In Alberta

Ottawa.—Fourteen new Moth planes were ordered by the Department of National Defence for distribution among flying clubs in Eastern Canada and for forest patrol work out of High River, Alta., air station. The order involves more than \$60,000.

The order calls for five machines especially equipped with radio sets, added fuel carrying capacity and special navigation instruments for the difficult patrols in Alberta where it is necessary for pilots to make long flights at high altitude.

MAY RESTRICT MIGRANTS FROM CERTAIN AREAS

Ottawa.—It is reported here that Hon. Rold, Forke, minister of Immigration, is planning to restrict immigration from Central and Southeastern Europe. The information is supposed to have been conveyed in telegrams from the minister, who is in the west, to Ottawa.

W. J. Egan, deputy minister, stated that he had received no such telegraphic communication from Mr. Forke.

The report suggested that the government would decline to renew the conventional agreement of the railways, which expires in October, 1930. This agreement enables the Canadian National and Canadian Pacific Railways to bring agricultural and domestic workers from these countries to Canada if they are suitable from a physical and mental standpoint. This agreement is subject to cancellation at any time on one year's notice, or can be suspended by order of the minister of labor if labor conditions here warrant it.

Boost Automobile Insurance

Report States Rates Throughout Canada Are To Be Increased

Toronto.—Automobile insurance rates throughout Canada are to be increased sharply—as much as 50 per cent. for legal liability and as much as 25 per cent. for collision, it was announced here recently, following a meeting of the Canadian Automobile Insurance Underwriters' Association. The increase will be graded to differentiate between urban and rural areas.

It was stated that the ground upon which the increased rates would be put into effect were that business under present conditions was unprofitable and that Canadian rates are lower than those prevailing in the United States.

It was announced that after a survey of present rates at the meeting, it was decided that "adjustments were imperative."

Science Aids Farming

Soon Be Able To Develop Wheat That Will Resist Both Rust And Frost

Ottawa.—Within the next few years Canadian experts will have developed scientific means to resist both frost and rust in the great new Peace River fields. Hon. W. R. Motherwell, member of agriculture, said when addressing the first day's session of the eastern Canada Fruit and Vegetable Jobbers' Association here.

"Canada is a great next year country," said the minister. He meant, he explained, that no matter what conditions of one time were Canadian people had a habit of pinning their faith upon the future and working wholeheartedly for the prosperity of tomorrow.

Expect Increased Migration

Liverpool, Eng.—Authorities, both British and Canadian, expect heavily increased migration of British farm hands to Canada in the spring. Negotiations are under way between the two governments it is understood, looking to the movement of 6,000 trained and partially trained men for farm work in April.

Report Is Denied

Ottawa.—The Canada-United States anti-smuggling conference recently issued a denial of statements appearing in a morning paper that the Dominion will not accede to the request of the American delegation for refusing of clearance to liquor cargoes for the U.S.

Customs Inspector Resigns

Nanking.—Resignation of A. L. F. Edwards, a British subject, as inspector general of Chinese customs has been accepted. Deputy Inspector F. W. Mase was appointed to succeed Mr. Edwards who resigned as a protest against dual control of customs.

Ojibway Indians of the Nipigon
District will not touch bear meat
because they are mostly mem-
bers of the Bear Clan, says Orank
Hipple, the well known sports-
writer. They are averse to killing
the bear and one hunting party re-
lates having to force eating bear
steak and having to bury a bear's
carcass because their clan refused
to touch the meat.

A trout weighing eight pounds
was a catch & ported last summer
by William Mitchellree in the
neighbourhood of Banff, Alberta.
"My record for the season is 395
fish," he writes, "all caught on red
and line within easy reach of
Banff. Recently at Wapiti I caught
two six pound rainbows and several
cutthroat weighing from two to
three and a half pounds."

A record was hung up beside the
Christmas stockings of the em-
ployees of the Canadian Pacific
Express Company on Christmas
Day when, from coast to coast,
every Christmas package was de-
livered to its destination, except
where there was no one to receive
them. According to T. E. McDon-
nell, president of the company, ap-
proximately 1,000,000 packages
this season and was well handled.

Many enquiries for Reward
wheat, one of the early ripening
varieties evolved by the Canadian
Government Central Experimental
Farm, Ottawa, are being received
by the Dominion Cereals Co. The
farm will have 10,000 bushels of
this new wheat for distribution,
and the 250 growers who were
allowed to grow Reward in 1928
will have a surplus of 2,000 bush-
els making available 12,000 bush-
els for seed in 1929.

Production of agricultural imple-
ments and machinery in Canada
amounted to \$42,996,238 in 1927,
according to the Bureau of Statis-
tics, as compared with \$38,269,214
for the previous year and \$24,776-
614 for 1925. Of the 65 firms re-
porting, 43 were in Ontario, 12 in
Quebec, 4 in Manitoba, 4 in Alberta,
one in Saskatchewan and one in
Prince Edward Island.

Having successfully completed
her trials off Scotland the new
Canadian Pacific British Columbia
coastal steamship "Princess North"
will arrive shortly at Victoria,
Vancouver Island. The new ship
is the seventeenth "Princess" of
the company's fleet and is equipped
with bow runners to facilitate na-
vigation in the narrow channels of
the west coast.

Canadian seed wheat is in con-
siderable demand in South Amer-
ica according to officials of the
agricultural department of the
Canadian Pacific Railway at Win-
nipeg. A ton of seed wheat was
recently shipped from Brandon to
Peruvian wheat ranchers, and it is
expected that further orders will
come from the South American re-
publics.

Less than a minute was required
to launch each boat when the life
saving equipment of the Canadian
Pacific liner "Duchess of Bedford"
received its regular test at New
York recently before embarking
its Christmas cruise of the West
Indies. "The finest and most ef-
ficient boat lowering apparatus I
have ever seen," was the comment
made by John J. Grady, head of the
United States steamship inspection
service, who was present for the
test. The "Duchess of Bedford" is
one of four sister ships of the new
"Duchess" class all of whom are
speedy oil burners and equipped
with the same efficient life saving
apparatus for use in an emergency.

CHAPTER XI.—Continued

"Where's the bunk-house?" asked Blackie.

"We don't call them bunk-houses any more, we have dormitories," corrected Gillis as he nudged Donald slyly.

"A what?" questioned the puzzled Blackie.

"Dormitories," repeated Gillis. Blackie glowered at his boss. "What are you runnin', a quarter's seminar?" he questioned sarcastically.

"And another thing, you don't need your blankets. Company furnishes 'em," informed Gillis.

"Well, I'll tell you one thing right now," declared "Crashy" Jack, "I ain't goin' to sleep in a pair of blankets that forty smelly bunks have wrapped themselves in. What kind of a joint you brought us to, Jack?"

"What I want to tell you fellers," said Gillis, ignoring "Crashy" Jack's remarks, "is this: I want you to stay all morning. None of this running to town to get your teeth fixed, or a new suit, see the ball game, or to meet your sister who's comin' out from the East, and all that old bunk. We got more orders."

"Can that chatter," interrupted "Righting" Jack with a wide grin. "We've all got to be on Dominion Day, ain't we, boys?"

"You bet!" they roared as one. Gillis shrugged his shoulders resignedly. "Thought you fellers was gettin' old enough to have a little sense," he said.

"Too much kick in us yet, Jack," demurred Blackie.

"Where is this door-mec-tory, Jack?" asked Hoop-la.

Gillis pointed to the long building and the boisterous crowd moved noisily up the hill. The men dropped their packs to the ground outside the door, and, shouldering each other, peered in. The long rows of white beds stood immaculate against the walls, and two white-coated flunkies were sweeping the glossy varnished floor.

"This ain't the right place," growled Hoop-la. "This is the hospital. They must expect to kill about a hundred men every day. Hi! Jack! Come here. Where's the bunk-room?" he asked as Gillis approached.

"That's it."

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acidness. Each bottle contains full directions—any drugstore.

"That!"
"Sure."
"Say! what you givin' us? I wouldn't dare sit down on one of them beds, 'fraid of dirty 'em."

"The others gathered round.

"Jack, can we pick up a log shack for ourselves?" asked Blackie.

"You sure can," responded Gillis tolerantly.

"All right, we'll sleep in this morgue 'till we get a decent place," said Blackie.

He poked his head in the door just as Andy, clad in white coat, entered by the rear.

"Say, nurse," shouted Blackie, "get ready for twenty-two cases of delirium tremens!"

"That's easy," was Andy's quick retort; "I've 'ad more than that by myself." His eyebrows lifted in quick surprise as he saw the brilliant shirt.

"When does the blinkin' circus start?" he grinned.

That evening in their explorations Blackie and Hoop-la found the log shack on the lake-shore.

"Say, Jack, can me and Hoop-la have that cabin down there?"

"You be you can, Blackie. You and Hoop-la can have anythin' round here," replied Gillis heartily.

Blackie had turned to go, but on hearing this broad statement he stopped quickly. "Say, Jack, me and Hoop-la came away from Vancouver owing a little munny—at I promised to send."

"I've got me when the gittin' is good," interrupted Gillis. "How much do you want?"

"Let me see," reflected Blackie, "I owe for my room in town; and I owe to Old Joe's and—"

"How much? Spit it out, I can stand the shock," commanded Gillis.

"'Bout a hundred, Jack."

"Whew!" whistled Gillis as he reached for his purse.

With Donald's assistance the hundred dollars was found and Blackie ran joyously down the hill.

"Little Devil!" smiled Gillis as he gazed after him. "Good-hearted a fellow as ever lived!" he added festively, "but he can't take one drink without goin' crazy."

The "redshirts" had been up in the woods looking over the logging operations, and they now came swinging down the hill, their bright shirts flashing in the sun. They were ingers, "every inch of them," as Gillis said.

CHAPTER XII.

Andy's study of nature proved to be no idle whim, and Gillis had long since ceased teasing him. All his leisure moments were spent in scouring the hills and meadows for specimens, and regularly every Sunday afternoon he ascended the hill to Wainwright's cabin with his collection for the learned Englishman's inspection.

On this afternoon, Wainwright, being in one of his solitary moods, had wandered up the mountain, and Andy found Connie busily engaged in spading the earth in search of worms, which she tossed to the swarms of birds that hopped on the ground and fed the air about her.

Scolding the bold camp-robbers that ventured dangerously near the shovel blade, she scattered the soil then laughed joyously as the birds with a great flutter of wings pounced on the fat worms.

Andy threw himself luxuriously on the green sward. This beautiful spot was a diversion from the hot kitchen, a veritable haven of rest. The gentle murmur of the bees among the flowers, the soft, subdued twittering of the birds, the rustle of the leaves,

Some of the 1929 reasons for asking for

The Standard of Quality Since 1853

They are always FRESH
They are always CRISP
They are always PURE

and the laughing-of the water, all combined to make one sweet monotone of sound that lulled him into drowsiness.

Connie sat down near him, the birds all about her.

"Ow do you get them so tame, Connie?"

"They know that I love them," she replied simply.

"I can't get anything but the camp-robbers to come near me," said Andy.

"It takes time and patience, Andy. As soon as the birds are assured that you mean them no harm, they are eager to be your friends. You'll remember, Dad told you that without plants man could not live," she went on. "It is equally true that if all the birds should perish, man would soon follow. And, still more wonderful if we had no insects man could not survive."

Andy came to a sitting posture. "Do you mean to say that we should die if we 'ad no insects?" he asked incredulously.

"Surely, Andy, you haven't forgotten what Dad told you last Sunday about insects carrying the pollen from flower to flower," reproved Connie.

"I 'ave it now!" cried Andy, "if we 'ad no insects to carry the pollen the plants couldn't live. And if the birds were all gone there'd be so many insects that they'd eat up every blaink-in' thing the farmers raised, and we'd starve to death."

Connie nodded.

"Strike me 'andsome if ain't wonderful! said Andy in an awed voice.

Connie explained very simply to Andy the benefits derived by mankind from the various birds. Her discourse proved so interesting to him that he paid little heed to the time until the sun, disappearing behind the trees, warned him that it was time to return to his duties. Regretfully he arose and turned to the trail. Connie walking by his side. A golden-finch, rich in his summer plumage of bright yellow, black, and white, hung away like a dainty sprite on a slender stem near the path. From its bulging little throat came a rippling, bubbling song like a miniature torrent of ecstasy.

"Dear, dear, dearie," he called sweetly.

"Oh, you darling!" cried Connie as she clasped her hands in rapture. "I've been trying to find their nest for several days, Andy, but the little dears have hidden it too well."

She made soft clucking sounds as she moved nearer to the beautiful bird. The goldfinch fluttered close to her side to perch like a yellow flower on the top of a tall thistle, perked its pretty head and looked up at her with bright shining eyes.

"Dear, dear, dearie," it sang again then flew with characteristic wavy motion to a clump of willows, twittering sweetly as it calling Connie to follow.

"I 'ave to 'urry 'ome," said Andy as he looked at his watch. He glanced back at a turn in the trail to see Connie pressing the willows gently aside in her search for the goldfinch's nest.

"Strike me pink! but she is a wonderful girl," soliloquized Andy. "The 'andsomest and the brainiest kid I ever saw in me life. If I was thirty years younger, two feet 'igher, and 'art decent to look at, I'd fall 'ead over heels in love with 'er."

He smiled broadly at these ridiculous reflections, but there was a tender light in his bright blue eyes. A

swarthy foreign labourer, moving aimlessly up the trail, merely grunted in reply to Andy's cheerful salutation.

"One of Gillis's beloved bouncies," chuckled Andy.

A moment later he stopped suddenly. Connie was up there, alone. For a short interval he hesitated, then resumed his downward journey. "She'd shoot 'is blinkin' 'ead off if I tried to 'arm 'er," he decided.

Just then he heard Connie's voice raised in a quick cry of anger. Andy jumped as though subjected to a galvanic shock. He turned in mid-air and before he struck the ground his short legs were going through the motion of running. The picture of Connie struggling in the arms of the burly foreigner made him fairly fly.

"I'm coming, Connie!" he shouted as he tore up the hill.

Donald and Gillis, sitting near the bluff enjoying a smoke came to their feet as they heard a faint shout from above. For an interval they listened intently, but hearing no further sound they resumed their seats. Andy slackened his pace as he came to the clearing and saw that Connie was unharmed. She was standing near the labourer with her head bowed over an object held in her hand.

"What's wrong, Connie?" panted Andy.

"Andy, look!" she choked, "it's the mother bird. I 'ad just found her nest—here it is." She pointed the bushes to disclose a compact, cozy, cup-like structure of fine grass and moss placed in a crotch of the tree. In the centre lay four downy fledglings whose tiny mouths gaped wide to receive the expected bit of food from the mother's bill. "Oh, Andy, if she dies the little ones won't live," said Connie in a voice filled with pity.

(To Be Continued.)

Planes Popular With Women

Of those who fly in the great passenger aeroplanes that link up Croydon aerodrome with continental capitals, at least 60 per cent. are women, figures published show. Some machines leave with only women as passengers, taking many to Paris for shopping tours. Planes are especially popular with honeymoon couples.

HOCKEY PLAYERS.

Use Minard's to overcome stiffness. The very thing for hurt muscles or ligaments.

See Pollination Unnecessary

That bees are not actually necessary to the pollination of fruit trees is understood to be the important finding of a group of government experts whose report will shortly be delivered to Hon. W. E. Motherwell, minister of agriculture.

Ward off Flu and Pneumonia

Neglected bronchial colds are dangerous. They often lead directly with Buckley's Mixture. Its action in relieving the cough and clearing the tubes is amazingly swift—and sure. All druggists sell "Buckley's" under a positive guarantee. Buy a bottle today, and be safe.

IT PAYS TO PAY CASH.

Mr Creath loaded his goods on two freight cars Tuesday, and left for his old home in Manitoba.

Mr E. H. Baron brought up a new Ford truck from Lacombe on Tuesday.

The St. Matthew's Walthers Leagues held its regular monthly social on Sunday evening, Jan. 13, in St. Matthew's Schoolhouse No. 2, with a good number of members and visitors present. All present had a good time; and at 10.30 p. m. they adjourned with singing "Onward Walthers Leagues!"

Tuesday, Feb. 5, is the date set for the hearing of the appeal in the Heichel Prairie fire case, in Edmonton.

The farmer's best friend is The Family Herald and Weekly Star, Montreal. It costs only a dollar a year.

Wohlsein, eat apples; get 'em at Hardwick's.

Honoring a Good Man.

His many good friends in town and district will be glad to know that Mr. Jas. Smith, formerly A.P. constable here, has been promoted to the rank of Sergeant, with headquarters at Lethbridge. He will leave his Leduc appointment in a short time, to assume his new position at Lethbridge.

Of him Editor Egan of the Representative says: "While congratulating Const. Smith on his promotion, there will be a general feeling of regret at his departure from Leduc."

Sporting Notes.

Capt. Conrad Fuhr took in a hockey team to Edmonton on Friday last, consisting of ex-pupils of Concordia college, to play the present-day team there, with the following result: Pupils 11, Oldtimers 6. On their return to Stony they were given a banquet at Christie's Cafe.

Coughed Up a Tooth.

A Los Angeles man was supposed to be dying of consumption, but the other day he coughed up a tooth that had in some way become lodged in his thorax, and is now on the way to recovery. If some of our readers would "cough up" their past due subscription to this great family journal we are sure they would feel a lot better.

Spruce Grove News

Mr. Chris Breithaupt was the loser recently of a quantity of oats taken from his granary on the Second quarter which he rents. The thieves adopted up-to-date methods, picking on a stormy day and using a big sedan motor car, making about five trips, going toward Edmonton on each trip. They were noticed by several motorists, but no suspicion was aroused. Mr. Breithaupt had, the previous evening, bagged up a quantity of the grain, with the intention of having it crushed. He estimates about 70 bu. were stolen. The case was reported to the Police, but as the snow drifted into marks made by the wheels, the tracking was rather difficult.

Mr. H. Morrow has been making motor trips to Breton, with supplies for the camp there.

The only other items of news from this burg this week are, the "Duke" is on the Water wagon still, and Louis Gruff got a haircut yesterday.

Offway Indians of the Nipigon district will not touch bear meat because they are mostly members of the Bear Clan, says Ozark Ripley, the well known sporting writer. They are averse to killing the bear and one hunting party relates having to forage eating bear steak and having to bury a bear's carcass because their cook refused to touch the meat.

A trout weighing eight pounds was a catch reported last summer by William Hitchcock in the neighbourhood of Banff, Alberta. "My record for the season is 24 fish," he writes, "all caught on rod and line within easy reach of Banff. Recently at Wapiti I caught two six pound rainbows and several cutthroat weighing from two to three and a half pounds."

A record was hung up beside the Christmas stockings of the employees of the Canadian Pacific Express Company on Christmas Day when, from coast to coast, every Christmas package was delivered to its destination, except where there was no one to receive them. According to T. E. McDonnell, president of the company, every Christmas was unusually heavy this season and was well handled.

Many enquiries for Howard wheat, one of the early ripening varieties evolved by the Canadian Government Central Experimental Farm, Ottawa, are being received by the Dominion Cerealist. The wheat will have 10,000 bushels of this new wheat for distribution. The new wheat for distribution will have a surplus of 2,000 bushels, making available 12,000 bushels for seed in 1923.

Production of agricultural implements and machinery in Canada amounted to \$42,996,286 in 1922, according to the Bureau of Statistics, as compared with \$35,263,214 for the previous year and \$24,776,216 for 1921. Of the 56 firms reporting, 43 were in Ontario, 12 in Quebec, 4 in Manitoba, 4 in Alberta, one in Saskatchewan and one in Prince Edward Island.

Having successfully completed for his trials off Scotland the new Canadian Pacific British Columbia coastal steamship "Princess Royal" will arrive shortly at Victoria, Vancouver Island. The new ship is the seventeenth "Princess" of the company's fleet and is equipped with bow rollers to facilitate navigation in the narrow channels of the west coast.

Canadian seed wheat is in considerable demand in South America according to officials of the agricultural department of the Canadian Pacific Railway at Winnipeg. A ton of seed wheat was recently shipped from Brandon to Peruvian wheat ranchers, and it is expected that further orders will come from the South American republics.

Less than a minute was required to launch each boat when the life saving equipment of the Canadian Pacific "Duchess of Bedford" received its regular test at New York recently before embarking its Christmas cruise of the West Indies.

"The finest and most efficient boat lowering apparatus I have ever seen" was the comment made by John S. Grady, head of the United States Steamship Inspection Service, who was present at the test. The "Duchess of Bedford" is one of four sister ships of the new "Duchess" class, all of whom are speedy, oil burning and equipped with the same efficient life saving apparatus for use in an emergency.
